

Hightech

Elevator EC and Lifting TH

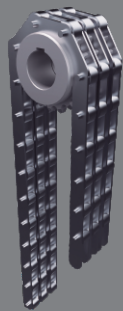

Guaranteed efficiency and quality, machines built to last.
We are committed to the best hygiene and maintenance practices.

Ensuring resilience and safety for different heights.

The Hightech lines of Elevators EC and Lifts TH offer safety and versatility for diverse industrial lifting and elevation needs. These equipment ensure efficient operations in lifting and tipping carts, containers, trolleys, and pallets, contributing to increased productivity across different sectors.

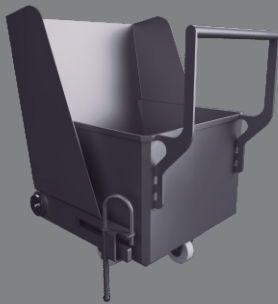

Elevator

Chains

Use a chain-driven system for reliable and secure transportation. The lifts also feature dual chains, providing additional safety for their operations.

Load Capacity

Offer various load capacities, ensuring efficiency and flexibility. The lifts are available in a variety of container and trolley formats, ensuring adaptation to different operational needs.

Lifting

Hydraulic System

Combine low energy consumption and robust construction by using hydraulic systems for lifting and tipping containers and trolleys. They meet the needs of heavy-duty transportation.

Lifting

Ensure secure locking of the buckets through a cradle system, which guarantees stability and operational integrity. The cradles are designed to support diverse container and trolley formats.

Elevators EC and Lifters TH Lines

Elevator EC

Model	Capacity (kg)	Dimensions (mm)	Power (kW)
EC 300	300	L:1860 W:1610 H:3590	1,5
EC 600	600	L:2650 W:1505 H:4465	2,2
EC 800	800	L:2650 W:1950 H:4465	3

Hydraulic Elevator EH

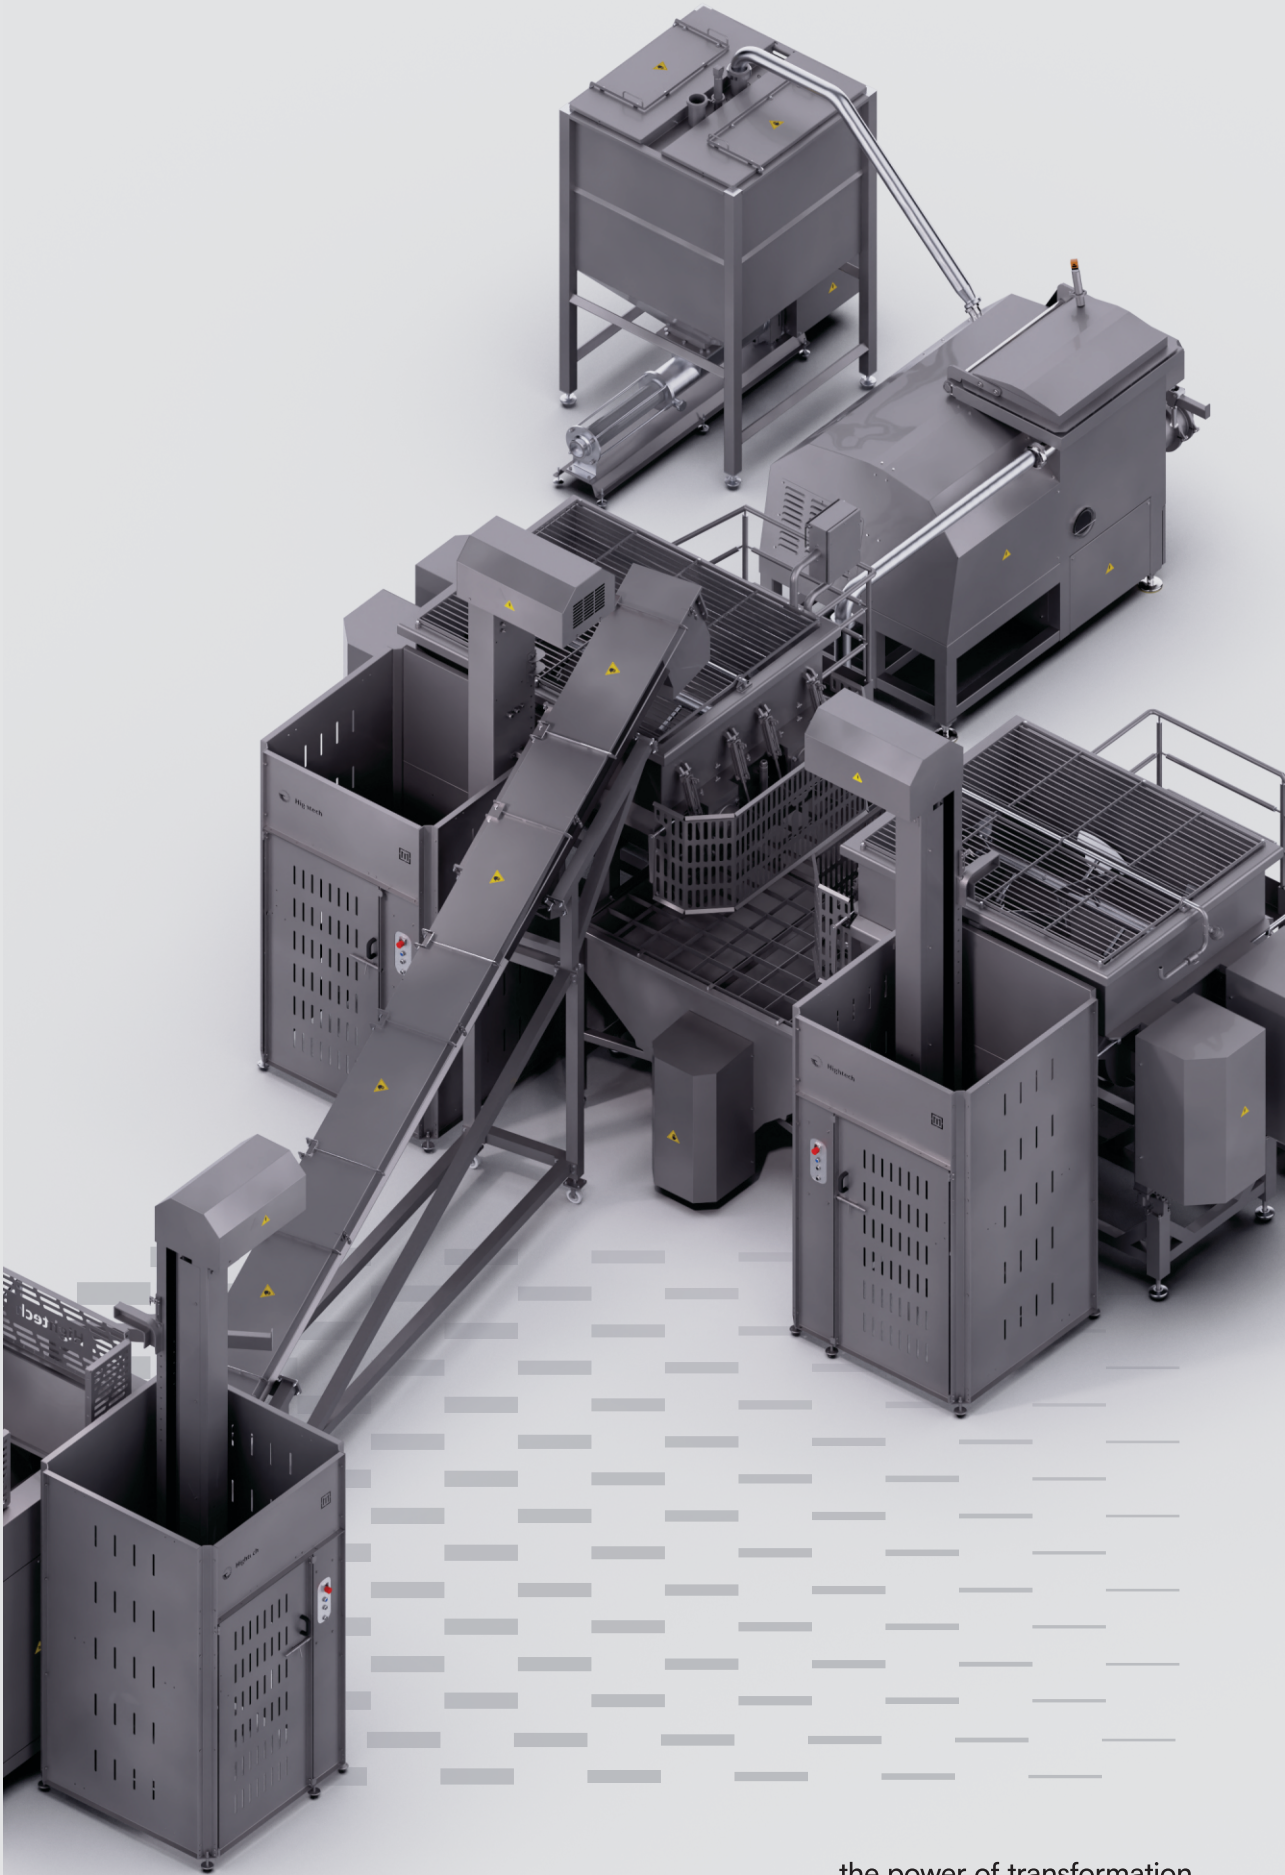

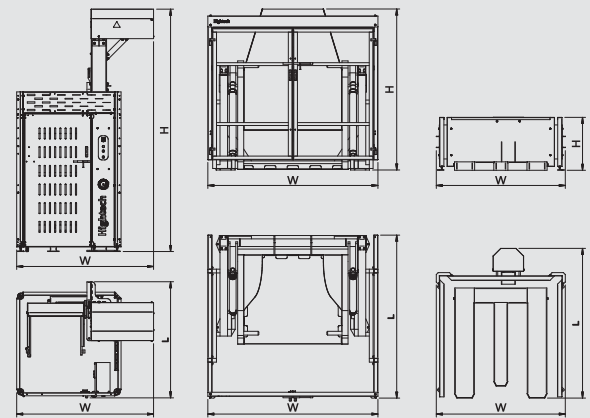

Model	Capacity (kg)	Dimensions (mm)	Power (kW)
EH 600	600	L:1790 W:2300 H:2860	2,2
EH 1000	1000	L:1790 W:2300 H:2860	2,2

Lifting TH

Model	Capacity (kg)	Dimensions (mm)	Power (kW)
TH 300	300	L:1278 W:1280 H:1300	0,75
TH 600	600	L:2010 W:1900 H:2167	1,5
TH 1800	1800	L:1980 W:2550 H:1730	5,5

Pantograph Lift EP

Model	Capacity (kg)	Dimensions (mm)	Power (kW)
EP 1000	1000	L:2010 W:1840 H:1000	0,75
