

Hightech

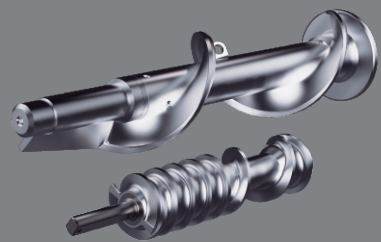

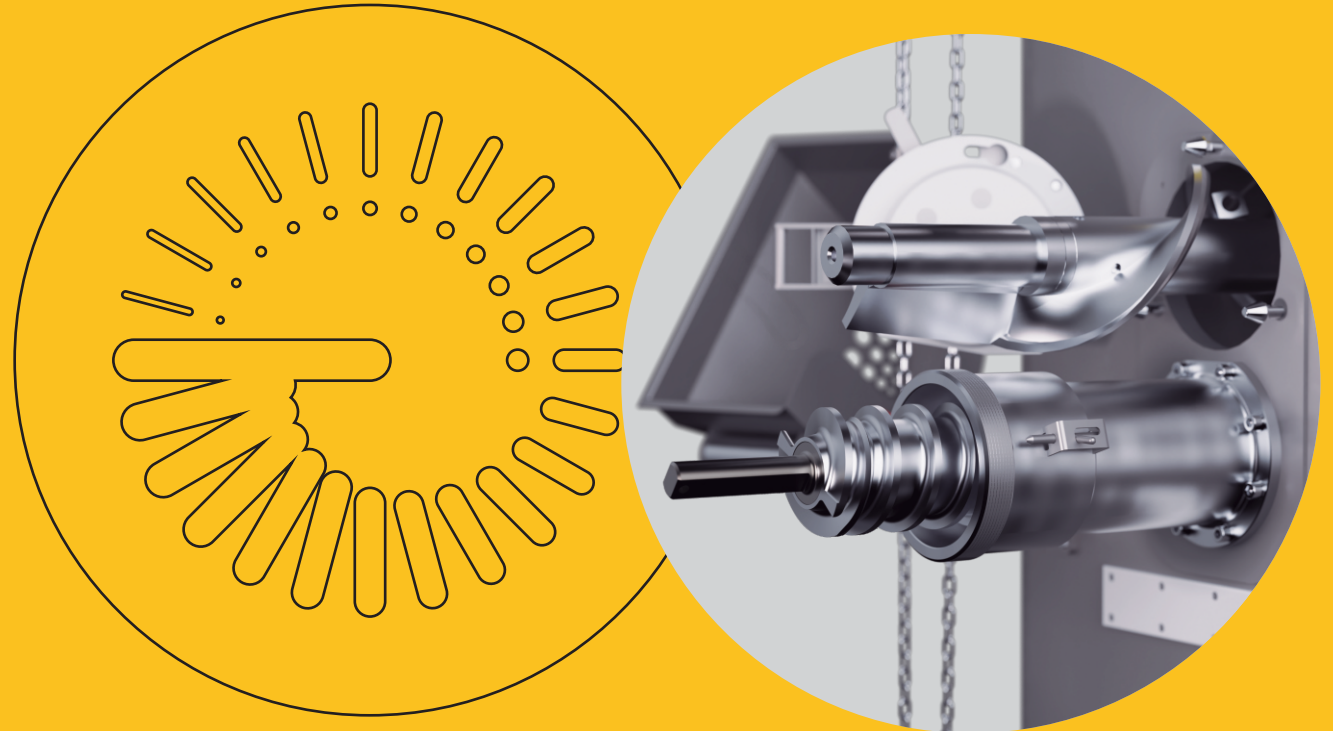

Grinder MG

Guaranteed efficiency and quality, machines built to last.
We are committed to the best hygiene and maintenance practices.

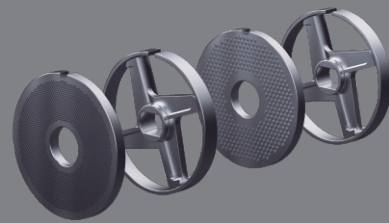

Power and versatility for industry.

In the Hightech line of Grinders MG, you will find robust equipment developed to meet the most demanding needs with quality and low maintenance costs, with large-scale grinding capacities for frozen blocks (up to -18°C) and chilled raw materials (up to 25°C).

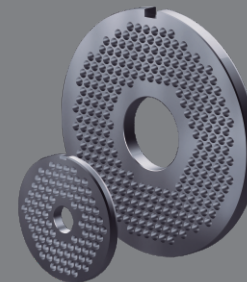

Double helioid grinding and breaking

Breaking and grinding operations integrated in the same machine.

Double cutting system

Can be assembled with up to 02 cutting sets.

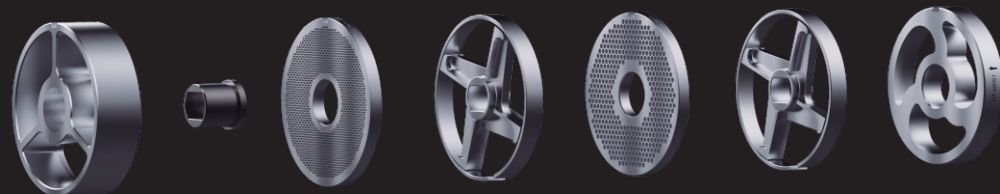

Cutting disc diameters of 200 and 280 mm

Different sizes to meet the most varied production capacities.

Separation system

Unique separation system for higher value-added products.

Repair or replacement parts:

- Cutting discs
- Pre-cutting discs
- Knives
- Bushings

Applications:

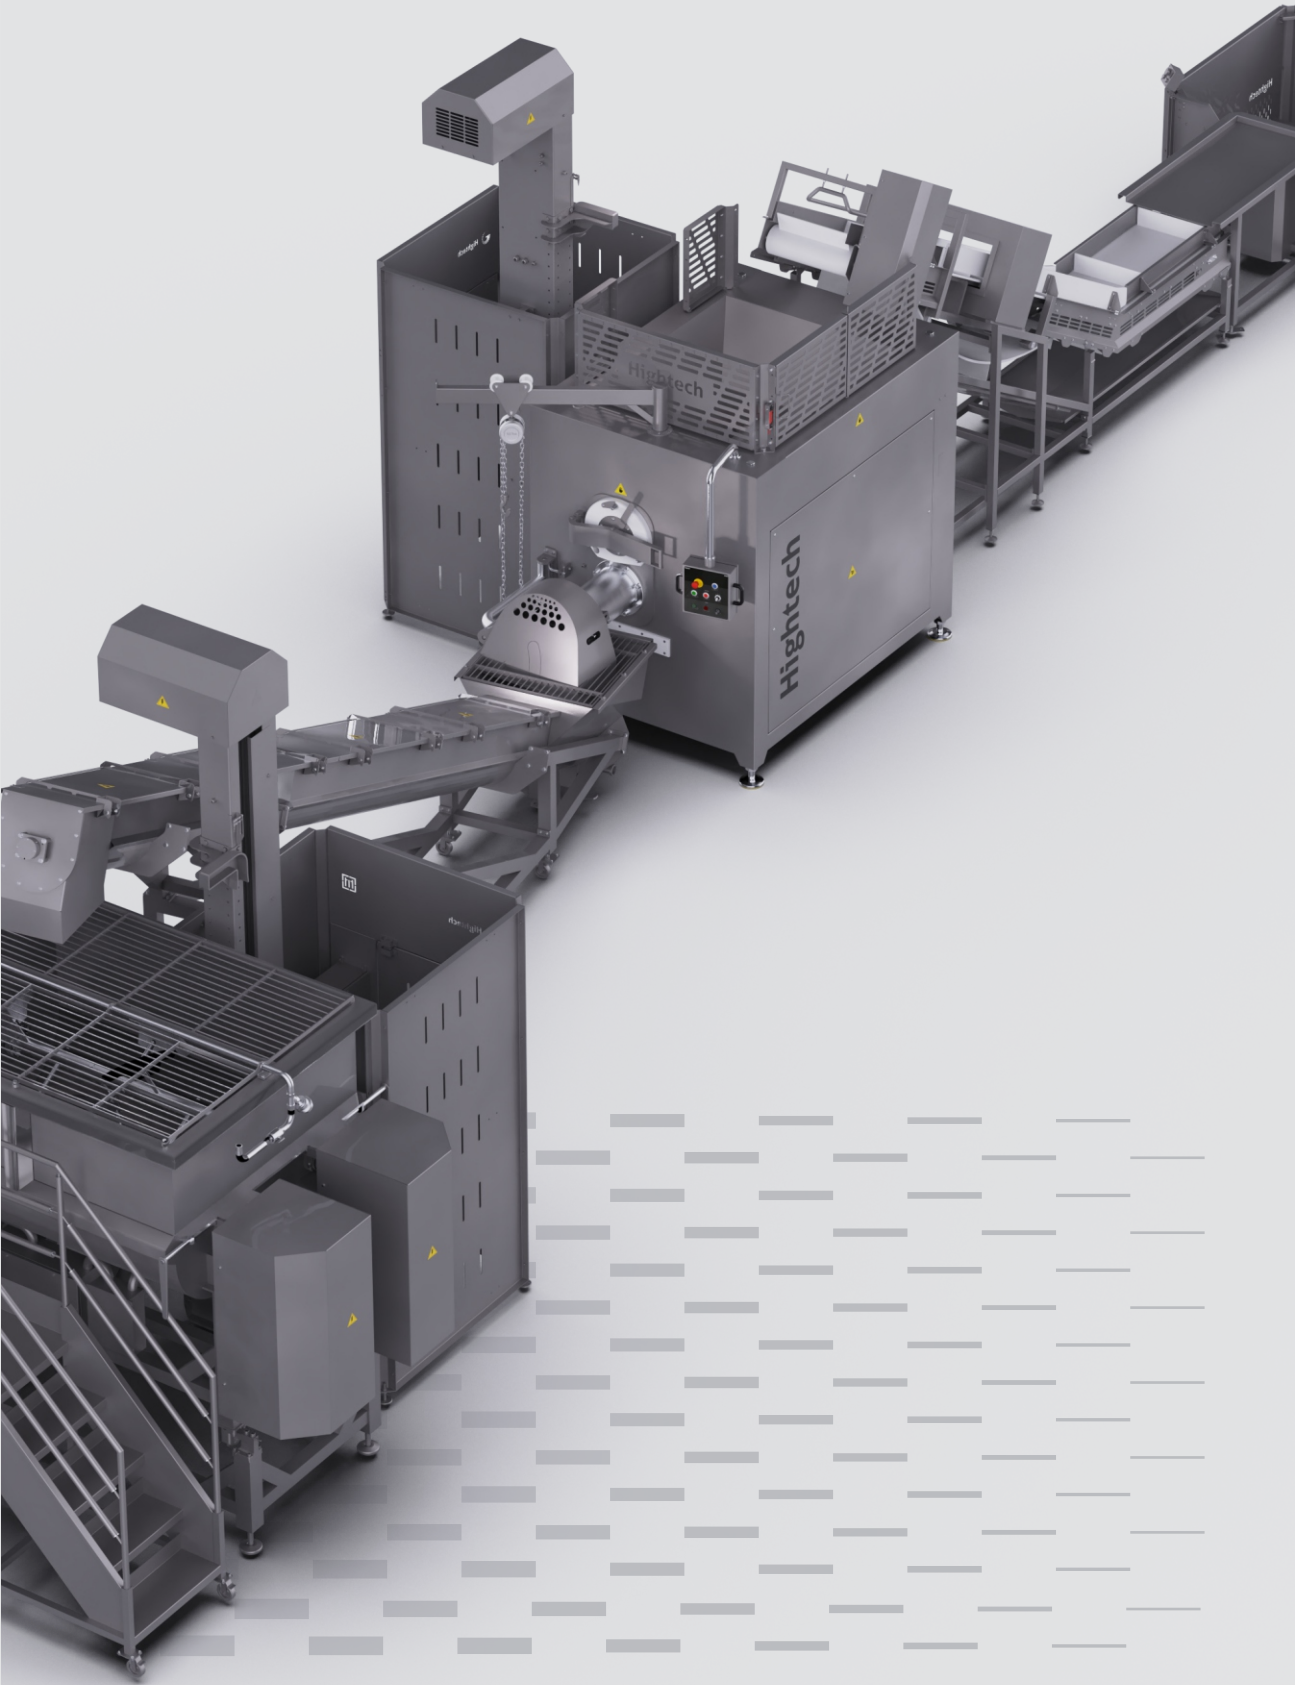

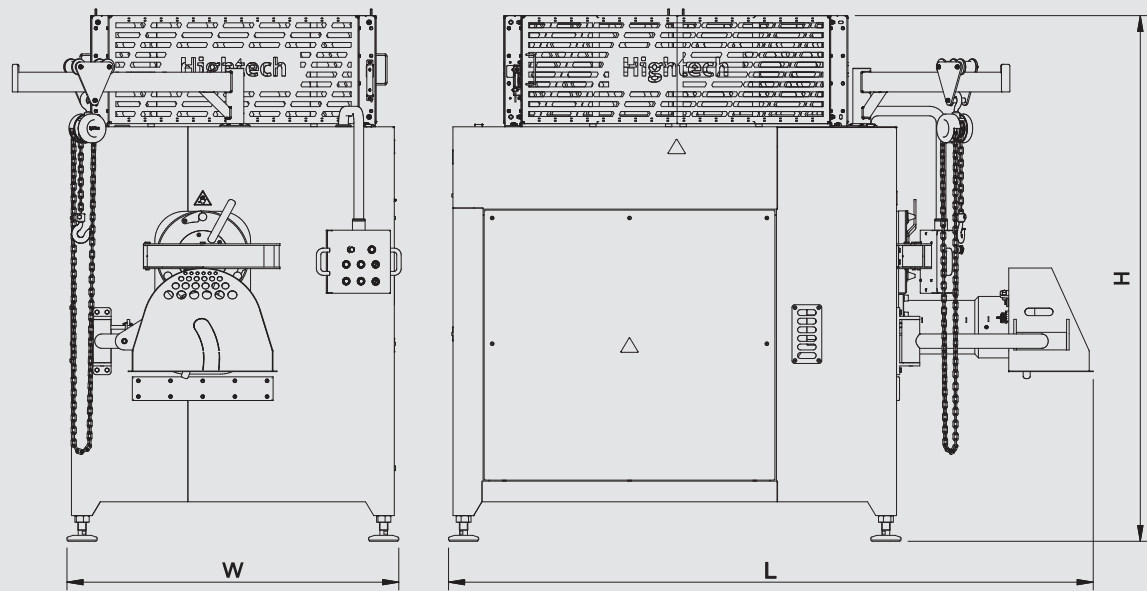

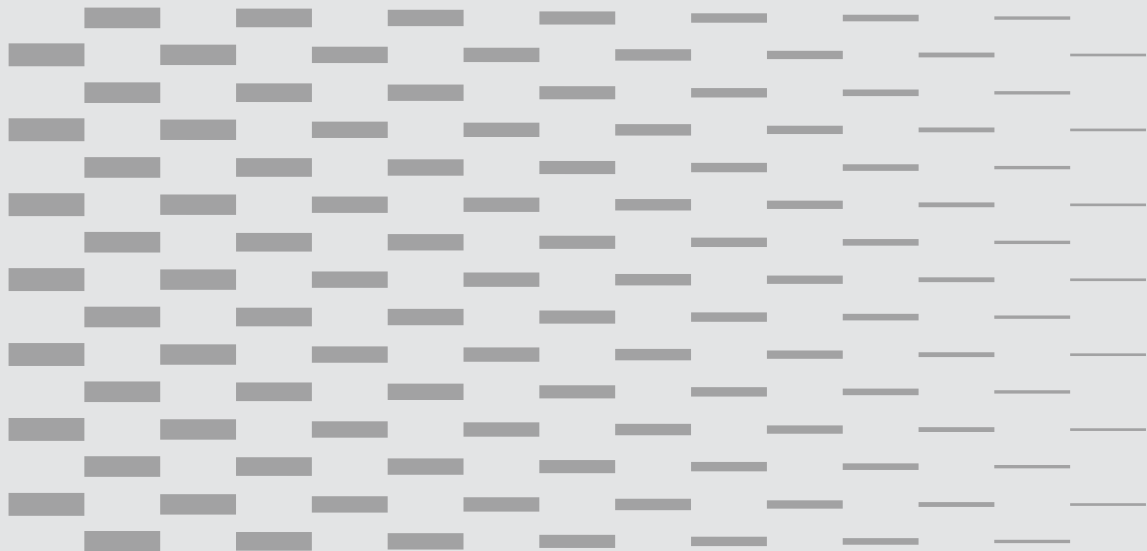

- Animal and plant proteins, fruits,
- vegetables, bird feathers, and skins

Grinders MG Line

Model	Dimensions (mm)	Power (kW)
MG 200	L:1630 W:1590 H:2000	37,5
MG 280	L:3200 W:1610 H:2690	132
