

Hightech

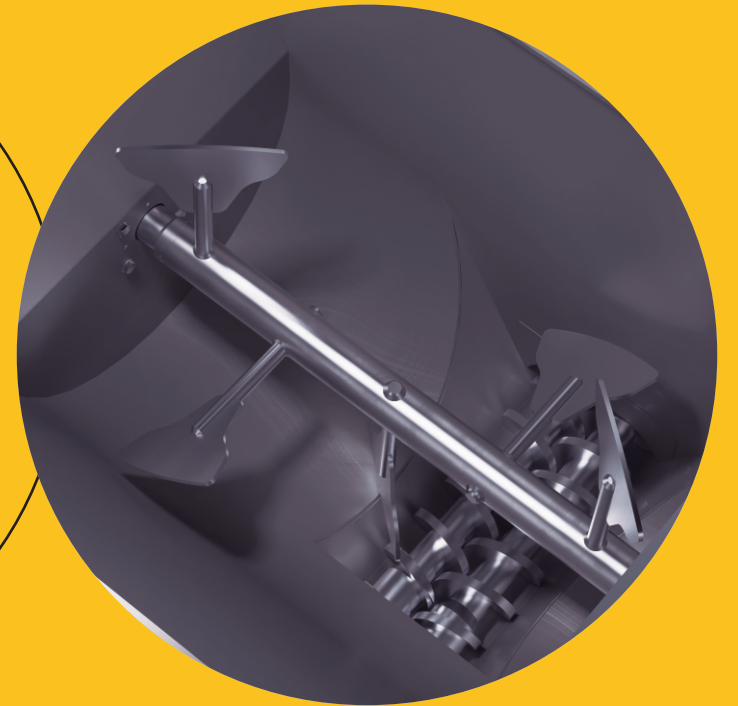

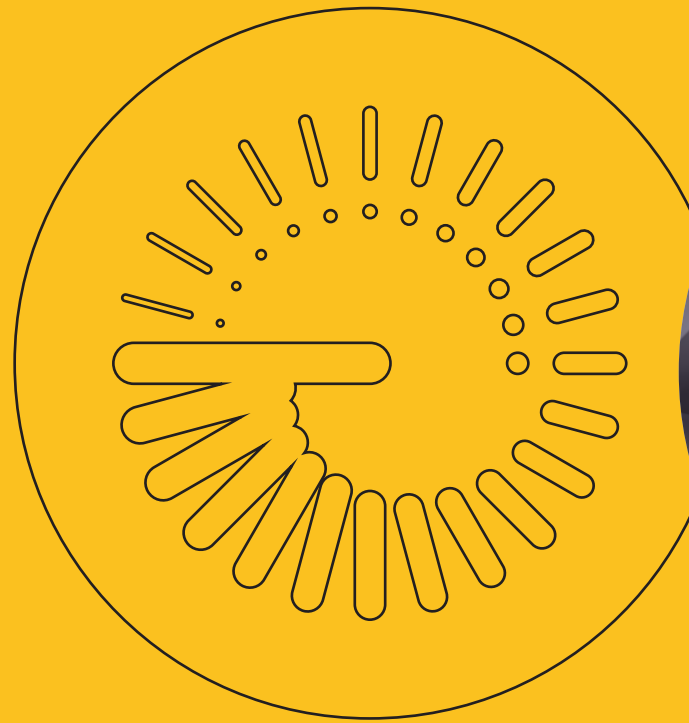

Grinder MS

Guaranteed efficiency and quality, machines built to last.
We are committed to the best hygiene and maintenance practices.

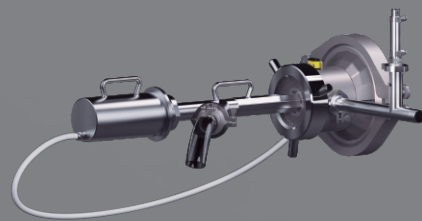

Higher quality grinding and separation.

The Hightech Grinder MS has a double helicoid shaft developed as a screw pump concept, providing pressure in the grinding process, and an exclusive system that allows the separation of nerves and cartilage from the meat, adding value to the final product.

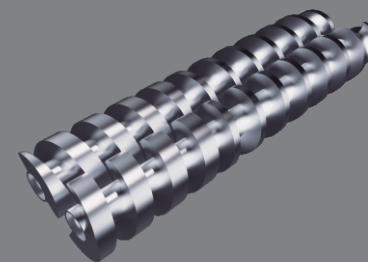

Agitator

Shaft with paddles for continuous and homogeneous feeding of the raw material.

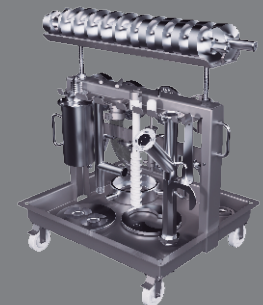

Separation system

Exclusive separation system for higher value-added products.

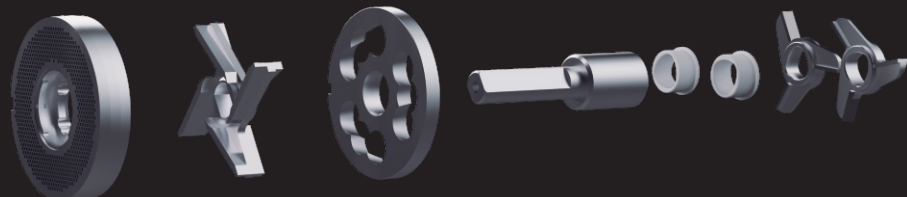

Double helical feed system

The grinding system is powered by a double helicoidal shaft, providing greater high pressure and enabling the separation.

Simple to assemble and to clean

Reduced number of parts, facilitating assembly, disassembly and cleaning process.

Repair or replacement parts:

- Cutting discs
- Pre-cutting discs
- Knives
- Bushings

Applications:

Animal and

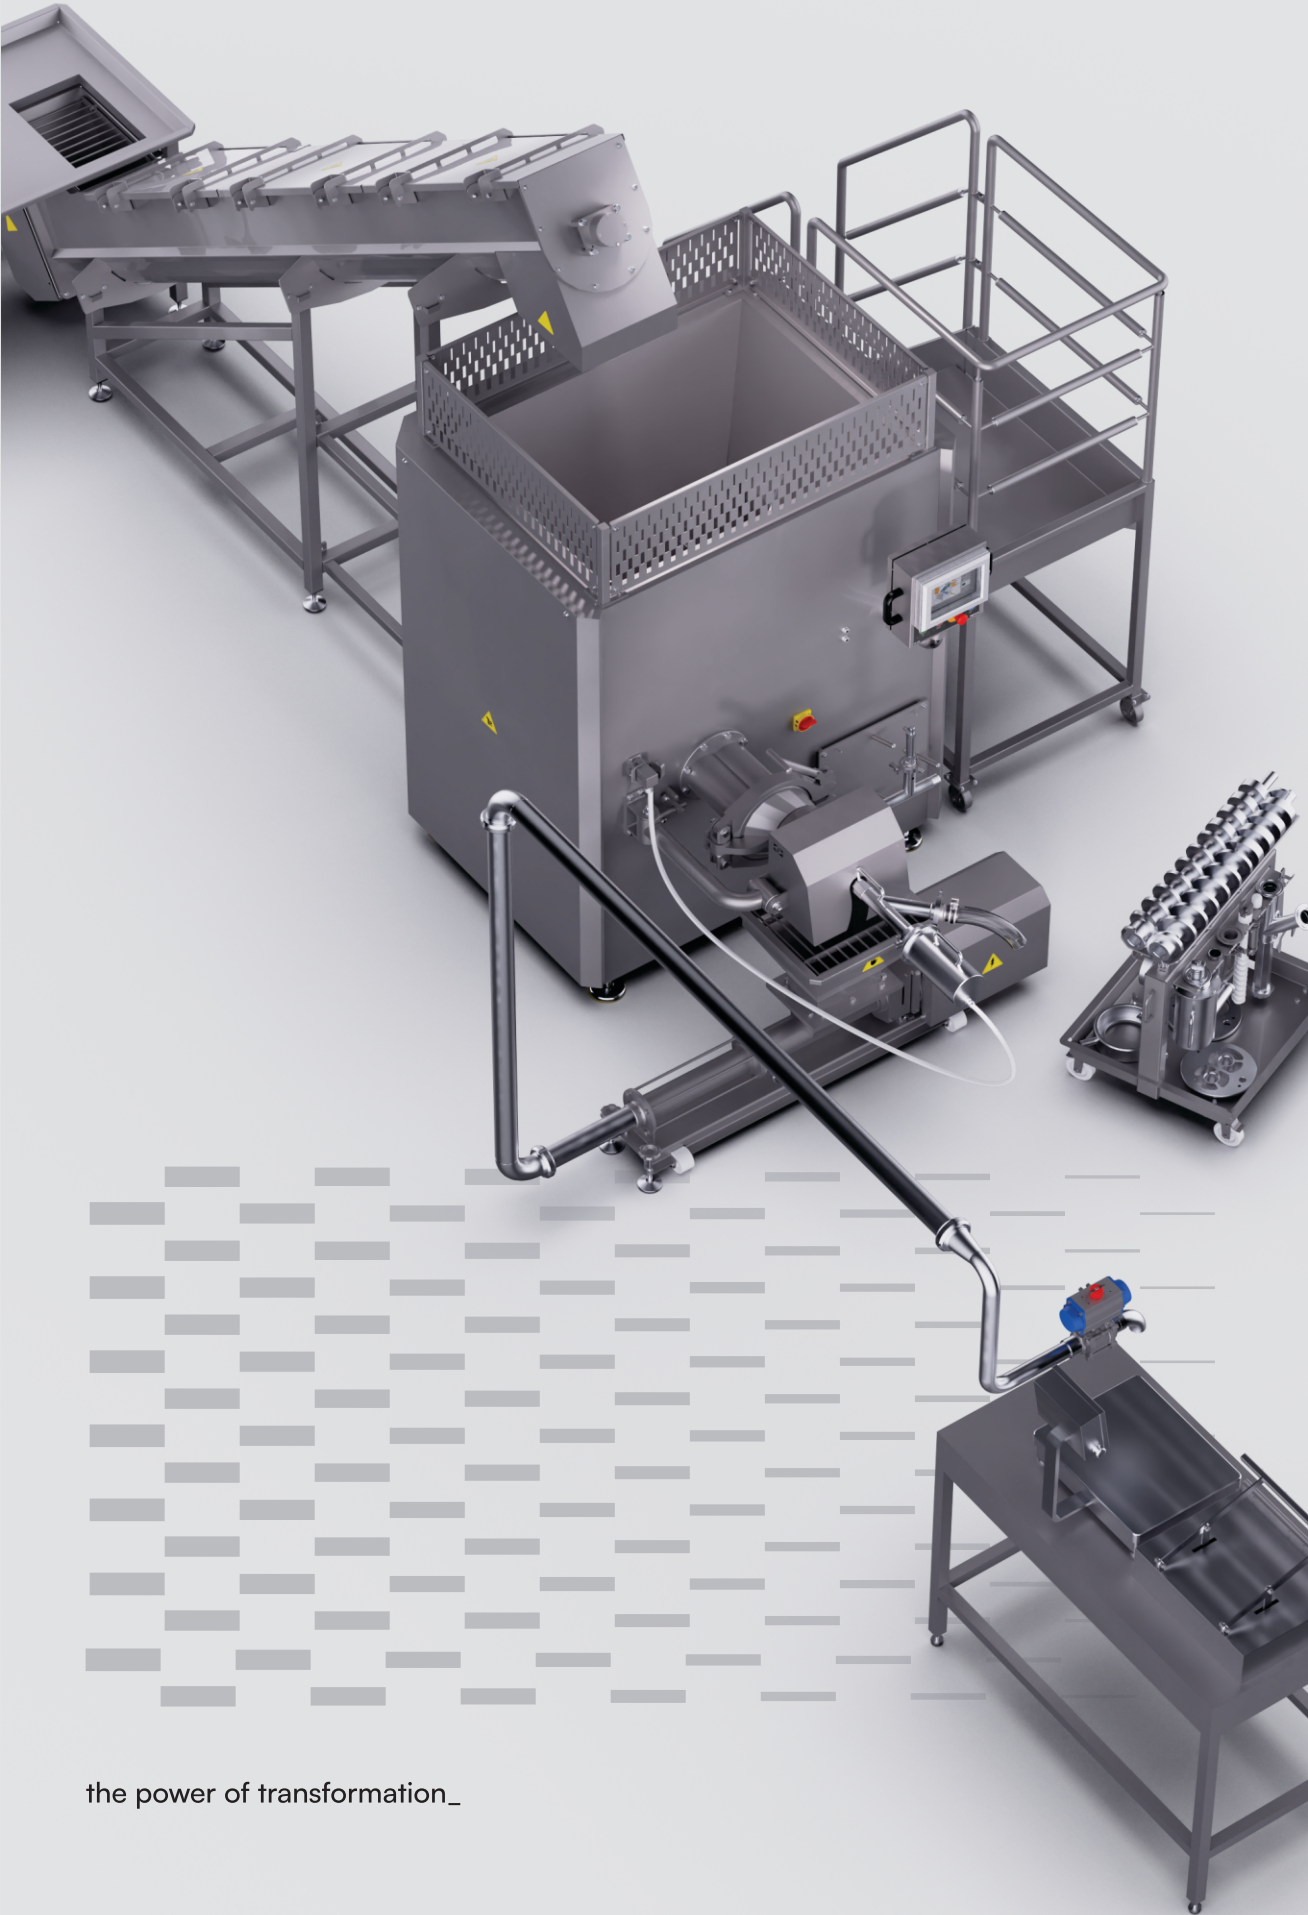

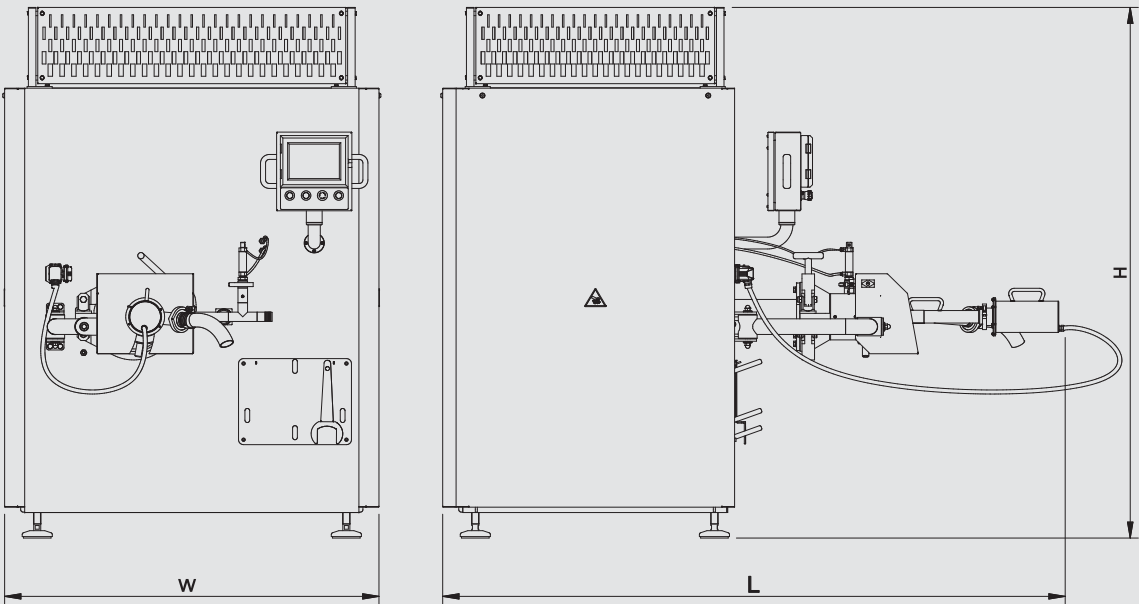

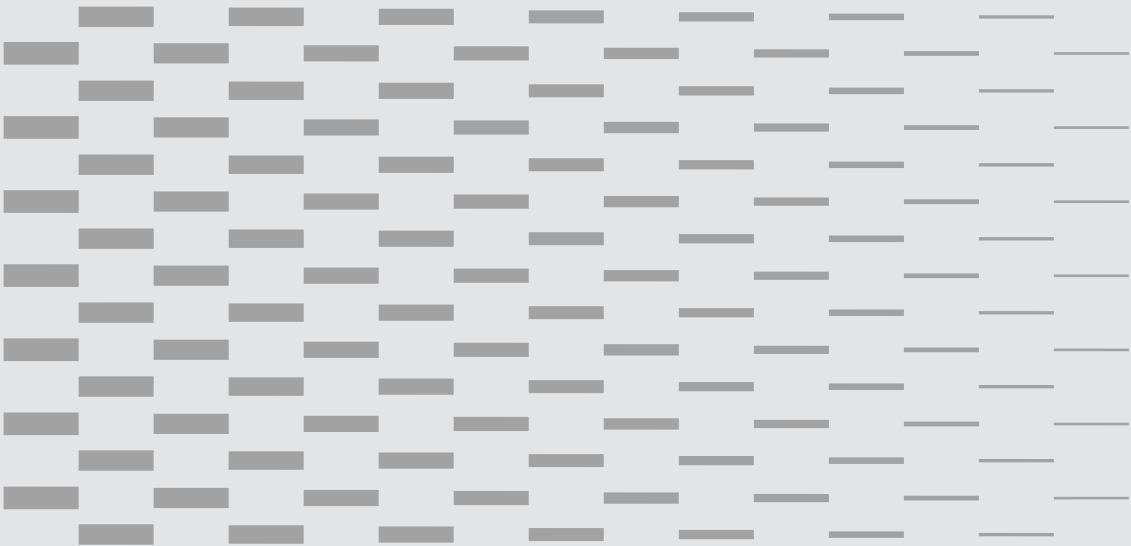

plant proteins

Grinder MS
